

STORM BASIN ENHANCEMENT Program

CITY OF TORRANCE

Project Benefits

- ▶ Storm water treatment through trash screens, natural systems and infiltration basins
- ▶ Habitat restoration
- ▶ Enhanced public viewing
- ▶ Naturalized walking trails
- ▶ Groundwater recharge
- ▶ Improved landscaping and aesthetics
- ▶ Water conservation

Funding

This project has been selected for a \$3.3M PROP 84 GRANT and is now under final design. Construction is scheduled for Summer 2012.

If you have comments on the Stormwater Basin Enhancement Program please write to:

Torrance, CA 90503
or e-mail jdettl@torranceca.gov.

Basins

Amie; Henrietta and Entradero Basins

Why

South Bay cities are required by the Regional Water Quality Control Board of Los Angeles to prevent storm water with bacteria and trash from being discharged to the Santa Monica Bay. Therefore, the City of Torrance is improving these stormwater basins in West Torrance to provide natural treatment systems, improve groundwater recharge and provide the community more opportunities for open spaces and walking trails.
